

Who is Ag Risk Managers?

Ag Risk Managers is an independent agency that assists farmers with the selection of yield or revenue protection insurance contracts based on the farmer's yield or the county yield.

Ag Risk Managers also provides crop hail coverage, lack of precipitation coverage, livestock price risk protection and dairy margin insurance.

Ag Risk Managers is a collaboration of professional agents committed to serving ag professionals with their crop production, crop revenue, crop hail, livestock price risk protection and dairy margin management.

Why is a crop insurance agent important?

Your crop insurance agent is the link between you and the farm bill safety net. Be sure to select a knowledgeable ag professional that understands all of the various crop insurance contracts, not just the common policies.
